Request for Blood donors

Canadian Blood Services provides essential products and services for patients. Blood and blood products are needed for patients undergoing surgery, cancer treatments, routine medical treatments for various diseases and disorders, and much more. O-negative blood donors are especially needed because this blood type can be transfused to any patient. In times of emergency or for newborn patients, O-negative blood, the universal blood type, makes a lifesaving difference.

Enhanced wellness measures are in effect throughout all our donor centres to ensure the wellbeing of donors and our teams is safeguarded. Donating blood is a positive way to cope with the pandemic and can help address feelings of helplessness you may have in these challenging times. **Currently there are 485 open appointments in Peterborough between now and Labour Day that need to be filled.** If you are in good health, book now at blood.ca, on the GiveBlood app or call 1 888 2 DONATE (1-888-236-6283).
